

enbio.

Enbio PRO

**World's fastest autoclave.
Class B.**

Designed  in Switzerland

Another dimension. Same performance.

Enbio sterilizers are up to 6 times smaller and 3 times lighter than a typical class-B / vacuum autoclave. But when it comes to work efficiency, they keep up the pace.

	Typical autoclave	Enbio PRO	Enbio ^S
 Tool pouches / h	50	50	32
Vacuum / drying	✓	✓	✓

The new definition of sterilization speed.

Time is a relative value. It flows differently under different circumstances.
But when you need to have your tools ready, you need them, well, FAST.
While other autoclaves might test your patience,

Enbio Magic Filter: forget about water

Imagine a race car covering a long distance on a teaspoon of fuel. Enbio autoclaves are like that. With Enbio Magic Filter as a standard equipment, they can run up to 1000 processes on just 1 liter of demineralized water. No tap or sink required.

**1 liter
of demineralized
water**

700 processes

Enbio PRO. Small foot. Big space.

Enbio PRO is an ideal solution as a basic workhorse in a small practice. Superfast sterilization and room to hold most of the instruments, including popular implant cassettes.

Unit weight
20 kg

Capacity
Max. packages amount (circa) 16
Max. recommended batch weight 1,0 kg
Process chamber volume 5,3 l

Pressure & temperature
Working pressure 2,1 Bar
Max. pressure 2,3 Bar
Max. process temperature 137°C

Dimensions
Width 25 cm
Height 20 cm
Depth 56 cm

Electrical
Power supply 230V/50Hz
Installed power 3250 W
Max. power consumption 15 A

Misc
Ingress protection IP20
Data archiving USB stick
Water conductivity* < 15 µS/cm

* - demineralized water only

Implantology

Enbio PRO accommodates all popular implant cassettes that fit in the 29×19×8 space.

Over 30,000 autoclaves sold in 6 years.

In just 6 years, Enbio's worldwide community has grown to over 30,000 users, who sterilize instruments in our autoclaves, for the complete safety of their customers and patients.

Designed
