

Vet Pro[®] 1000 Mobile Dental Delivery System

Midmark Animal
Health Products

Provide effective dental treatments with our dental delivery system.

The VetPro® system is the ultimate in efficiency, quality and ease of use in veterinary dental delivery systems.

VetPro® 1000

- Precise controls designed specifically for veterinary dentistry
- Switch from handpiece to handpiece without touching a button—the unit will automatically activate the correct handpiece as it is lifted from its cradle
- A sound level of 40 dB—one of the quietest compressors on the market
- Oil-free compressor means no messy oil changes
- Requires very little routine maintenance for hassle-free operation
- Online and in-clinic product training is available

VetPro® 1000 Accessories

The Midmark VetPro® dental delivery system gives you unsurpassed reliability, backed by our trained service technicians and independent service network. Our dental technology improves the quality and quantity of procedures you can perform—enhancing patient health and practice profitability. Get the most efficient oil-free, worry-free, hassle-free solution for your veterinary dental delivery needs.

We provide the highest quality accessories, including:

Venturi suction upgrade kit

Rodent dentistry kit

Antimicrobial cover

Acteon® Newtron Piezo LED Scaler

VetPro® fiber optic highspeed handpiece with optional 360° swivel

Venturi suction

Kit for rodent dentistry

Meisinger bur block starter kit

The VetPro® 1000 is an enclosed system, protecting internal mechanics from contaminants and animal hair. The front, side and top covers are made from sturdy ABS plastic to withstand the strains caused by frequent usage.

Acteon® Scaler Tips

Provide gentle, effective treatments with the Acteon® Newtron LED piezoelectric scaler, designed for high-quality, precision and efficiency. The color-coded tips correspond to the frequency control knob while the cruise control function adds an additional measure of safety. Optional handpiece and LED scaler improve visibility in the oral cavity.
